

Valor™ 1000

Compact Precision Scales

Economic precision weighing in a portable scale

OHAUS Valor™ 1000 portable scales are a durable and economical choice for precision weighing, checkweighing, portioning and other basic weighing needs. Standard software includes checkweighing mode, accumulation mode and multiple units of measure. Valor 1000 scales feature a removable, full stainless steel weighing platform, and a mid profile ABS plastic housing with leveling adjustment. Each scale also comes standard with a long lasting internal rechargeable battery for ultimate portability and convenience.

Standard Features Include:

- **Ergonomic design** – Compact footprint, mid profile height, large stainless pan with a bright, easy to read backlit LCD & audible beeps
- **Solid performance** – Fast response time, leveling capability standard, and precision resolutions up to 7,500d
- **Friendly operation** – Easy to clean and easy transport size. All scales come with a long life internal rechargeable battery with standard AC power and user selectable auto shut off backlight.
